6. Fiscal Funding

Licensee represents that it is a government agency or instrumentality, and that Licensee has obtained all requisite approvals and authority to enter into and perform its obligations hereunder, including, without limitation, the obligation to make the initial payment or payments required to be made hereunder on the date or dates upon which such initial payment or payments may become due during Licensee's current fiscal year. With respect to any subsequent payment which may be required to be made hereunder in any subsequent fiscal year of Licensee, the parties acknowledge that Licensee's authority to make such subsequent payment may be contingent upon appropriation to Licensee by relevant government agencies or legislative authorities of funds sufficient for such purpose. If such additional sufficient funds are not so appropriated to Licensee, either CA or Licensee may terminate this license as of the first day of the applicable subsequent fiscal year of Licensee with respect to which such sufficient funds are not made available. Licensee agrees (a) not to effect such termination for the purpose of replacing the Licensed Program(s) with an equivalent product or products supplied by others and (b) to use its best efforts to obtain such sufficient funds by taking all appropriate action to effect the appropriation of such additional sufficient funds. Upon such termination, Licensee shall immediately cease all use of the Licensed Program and return to CA all copies of the Licensed Program and all related documentation and continue to abide by the provisions of the License Agreement relating to the confidentiality thereof.

7. Virtual Machine Technology

Where the Licensed Programs are installed on multiple machines (physical & "virtual") each such installation shall be counted for the purposes of determining the Authorized Use Limitation for such Licensed Programs. A "virtual" PC and server environment is created where Virtual Machine Technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously.

8. New Products

In addition to and separate from unspecified upgrades and enhancements to be provided as maintenance under the initial term of this agreement (together with any extension(s) or renewal(s) thereof, the "Term"), in the event CA develops a new release of a Licensed Program that it designates and makes generally available as a new product (typically containing new function in addition to or different from existing functionality, a "New Product"), the upon CA's receipt of Licensee's written request and without additional charge, such currently unspecified New Product shall be made available for use by the Licensee during the Term, on the same basis as applies to such Licensed Program, even if CA then determines to charge a separate license fee for the New Product to CA's other licenses.

9. Confidentiality

Licensee hereby acknowledges that the terms and conditions of the License, as amended hereby, are personal to Licensee and are highly confidential. Licensee hereby agrees that it shall not disclose any of the terms thereof (including, without limitation, the terms relating to pricing and authorized use) to any person or entity other than Licensee's own employees, auditors, and attorneys who have a need to know such information in connection with their performance of services for Licensee.

10. Export

Licensee shall observe all relevant import and export laws and regulations, including but not limited to the regulations of the US Department of Commerce.

11. Product Deliveries

Any Licensed Program identified with a "No" under the heading entitled "Shipment Required" on the Eighth Revised Exhibit A was previously delivered to Licensee by CA and therefore will not be delivered to Licensee at this time. Licensed Programs identified with a "Yes" under such heading will be delivered to Licensee upon execution of this agreement. The Licensed Programs shall be delivered to Licensee, either by electronic delivery or in tangible media F.O.B. Point of Shipment, as CA deems appropriate.

12. Authorized Signature

The undersigned hereby certifies that he/she is authorized to bind the agency to the terms and conditions of this Agreement.

13. Acknowledgement

The pricing and terms negotiated herein are contingent upon Licensee's execution and delivery to CA of this Agreement prior to 12pm Eastern Standard Time on March 28, 2008. In the event Licensee does not meet the above criteria, this offer is rescinded unless countersigned by CA. Once countersigned by CA, this provision shall be deemed null and void and shall have no legal effect. An offer is not valid unless CA Legal approval is indicated.

14. Entire Agreement

This Amendment, together with the License and all effective previous Amendments to this License, as well as any Exhibits attached hereto, consisting of sequentially numbered pages, constitutes the entire agreement between CA and Licensee with respect to the License. No alteration or modification of this Amendment will be valid unless made in writing and signed by the parties. Except as expressly provided herein, the terms of the License shall remain in full force and effect.
